What Will You Do Without Freedom?

The American Freedom Party has a populist, nationalist platform which is guided by the sole principle of supporting what is good for America and Americans. The party rejects the archaic "left-right" and "liberal-conservative" paradigms in favor of an outspoken advocacy of freedom and liberty that rings true to America's traditional values and way of life.

Among other positions, the American Freedom Party strongly supports the Constitution and the Second Amendment; securing our borders; immigration enforcement, living in a healthy and moral society that rejects all the "isms" imposed from the top-down upon Americans as if we are guinea pigs; freedom of association, including self-determination for all nations and the right of all races and peoples to celebrate their heritage; greatly reducing the size and scope of the federal government and dismantling its domestic police state and overseas military empire; and rebuilding the American economy and its industrial might and independence.

The party that addresses the issues of White Americans

(1-Year Regular membership is \$25.00 and includes a membership coin, phone support, activist materials, and email newsletter.)
